

**US Army Corps  
of Engineers®  
Memphis District**

**Nov. 16, 2012**

Published every  
Tuesday and Friday

# Mississippi River

# Low Water Update

## Our Mission

**Important Notice: Effective with the Nov. 20 issue, this publication will go to a once-a-week schedule, publishing every Tuesday.**

The Memphis District, U.S. Army Corps of Engineers, will continuously and proactively plan for and execute actions in order to ensure authorized navigation channels and harbors are sustained. We will collaborate with all relevant Corps elements, navigation and port partners, and other stakeholders as part of a unified region, and leverage all available resources and capabilities.

## Purpose of this newsletter

To inform the public and our partners on the status of harbors, the navigation channel, and current and future operations.

## Additional information

**General Conditions:** With Thanksgiving approaching we can expect mostly clear skies and no rain through the weekend with light rain (1/4" or less) possible on Monday/Tuesday. High temperatures are forecasted to be in the lower 60s/lower 70s through Thursday with low temperatures predicted to be in the mid 30s/mid 50s. Through Nov. 29, expect below normal precipitation and above normal temperatures. This morning the Cairo stage was 12.4 feet and will fall to 12.0 feet by Wednesday. Memphis was minus 3.8 feet this morning and will remain relative steady for the next five days.
