Colonel Benjamin Butler, District Engineer
Little Rock District Corps of Engineers
P. O. Box 867
Little Rock, Arkansas 72203-0867

RE: PUBLIC NOTICE ID NO. NATIONWIDE PERMIT PROGRAM

Dear Colonel Butler:

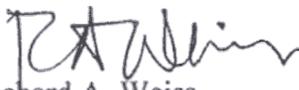

The Arkansas Department of Environmental Quality ("ADEQ") has completed its review of the above referenced permit for the **U.S. Army Corps of Engineers**, for authorization of the Nationwide Permit Program for the State of Arkansas.

ADEQ has determined there is a reasonable assurance this activity will be conducted in a manner which, according to the Arkansas Pollution Control and Ecology Commission's Regulation No.2, will not physically alter a significant segment of any waterbodies and will not violate the water quality criteria.

Pursuant to §401(a)(1) of the Clean Water Act, the ADEQ hereby issues water quality certification for this project: ID NO. Nationwide Permit Program; contingent upon the following condition:

An individual §401 water quality certification will be required for any activity impacting extraordinary resource waters, ecologically sensitive waters, and natural and scenic waters as delineated in Regulation No.2.

Sincerely,

Richard A. Weiss
Interim Director
