

**CORPS REGIONAL CONDITIONS WITHIN MISSISSIPPI
MAY 2002**

Mississippi Department of Environmental Quality has issued conditional Section 401 certification for all NWP's (except NWP's 21 and 44) requiring authorization under Section 404 of the Clean Water Act. NWP's 21 and 44 were denied certification and would require an individual certification from the State prior to utilization. See the water quality certification by the State for details.
