

DEPARTMENT OF THE ARMY
U.S. ARMY CORPS OF ENGINEERS, MEMPHIS DISTRICT
167 NORTH MAIN STREET B-202
MEMPHIS, TN 38103-1894

February 21, 2024

Dear [REDACTED]:

This is in reference to your request on behalf of [REDACTED] for an Approved Jurisdictional Determination (AJD) on property located 0.5 miles northwest of the intersection of Highway 1 and Highway 243 in Marvell, Phillips County, Arkansas, as shown on the attached map. Based on the information submitted to our office and other information available to us, it is our determination that the property does not contain any wetlands or other waters of the United States.

This determination was done in accordance with the pre-2015 Regulatory Regime following the Sackett decision. The basis for our AJD is attached. This AJD is valid for five years from the date of this letter, unless new information warrants revision of the determination before the expiration date or the District Engineer has identified, after public notice and comment, that specific geographic areas with rapidly changing environmental conditions merit re-verification on a more frequent basis.

This letter contains an AJD for your subject site. If you object to this determination, you may request an administrative appeal under Corps of Engineers regulations at 33 CFR Part 331 as described in Section I.D. of the attached Notification of Appeal Process and Process and Request for Appeal (RFA) form. If you request to appeal this determination you must submit a completed RFA form to the Mississippi Valley Division within 60 days of the date of this letter (April 20, 2024) at the following address:

Appeals Review Officer
Mississippi Valley Division
P.O. Box 80
Vicksburg, Mississippi 39181-0080

In order for an RFA to be accepted by the Corps of Engineers, the Administrative Appeals Officer must determine that it was received by the deadline, is complete, and that it meets the criteria for appeal under 33 CFR Part 331.5. Please review and carefully consider this information. It is not necessary to submit an RFA form to the division office if you do not object to the determination in this letter.

The delineation included herein has been conducted to identify the location and extent of the aquatic resources for purposes of the Clean Water Act for the particular site identified in this request. This delineation may not be valid for the Wetland Conservation Provisions of the Food Security Act of 1985, as amended. If you or your tenant are United States Department of Agriculture (USDA) program participants, or anticipate participation in USDA programs, you should discuss the applicability of an Natural Resources Conservation Service Certified Wetland Determination with the local USDA service center, prior to starting work.

The Memphis District, Regulatory Division is committed to providing quality and timely service to our customers. In an effort to improve customer service, we invite you to go to our customer service survey found on our website at <https://regulatory.ops.usace.army.mil/customer-service-survey/>. Your comments, positive or negative, will not affect any current or future dealing with the Corps of Engineers.

If you have questions, please contact [REDACTED] at ([REDACTED]) and refer to File No. MVM-2024-023.

Sincerely,

[REDACTED]
Deputy Chief
Regulatory Division
