

**DEPARTMENT OF THE ARMY**  
U.S. ARMY CORPS OF ENGINEERS, MEMPHIS DISTRICT  
167 NORTH MAIN STREET B-202  
MEMPHIS, TENNESSEE 38103-1894

February 5, 2024

[REDACTED]

Dear [REDACTED]

This regards your request for an approved jurisdictional determination (AJD) for a 51-acre property located on Cotton Creek Road in Pillowville, Weakley County, Tennessee, as shown on the enclosed map. Based on the information submitted to our office it is our AJD that Wet Weather Conveyance (WWC) 1, WWC 2, Pond 1 and Pond 2 located in the area of proposed impact are not considered waters of the United States and therefore are not subject to regulation under Section 404 of the Clean Water Act; a Section 404 permit is not required for the discharge of dredge or fill material into these features. The location and extent of these non-jurisdictional waters is shown on the enclosed map.

This determination was completed in accordance with the pre-2015 Regulatory Regime following the Sackett decision. The basis for our AJD is attached. This AJD is valid for five years from the date of this letter, unless new information warrants a revision of the determination before the expiration date or the District Engineer has identified, after public notice and comment, that specific geographic areas with rapidly changing environmental conditions merit re-verification on a more frequent basis.

This letter contains an approved jurisdictional determination for part of your subject site. If you object to this AJD, you may request an administrative appeal under Corps of Engineers regulations at 33 CFR Part 331 as described in Section I.D. of the attached Notification of Appeal Process and Process and Request for Appeal (RFA) form. If you request to appeal this determination, the completed RFA form must be submitted within 60 days of the date of this letter, April 5, 2024, to the Mississippi Valley Division at the following address:

Appeals Review Officer  
Mississippi Valley Division  
P.O. Box 80  
Vicksburg, Mississippi 39181-0080

In order for an RFA to be accepted by the Corps of Engineers, the Administrative Appeals Officer must determine that it was received by the deadline, is complete, and that it meets the criteria for appeal under 33 CFR Part 331.5. Please review and carefully consider this information. It is not necessary to submit an RFA form to the division office if you do not object to the determination in this letter.

The delineation included herein has been conducted to identify the location and extent of the aquatic resources for purposes of the Clean Water Act for the particular site identified in this request. This delineation may not be valid for the wetland conservation provisions of the Food Security Act of 1985. If you or your tenant are United States Department of Agriculture (USDA) program participants, or anticipate participation in the USDA program, you should request a certified wetland determination from the local office of the Natural Resources Conservation Service, prior to starting work.

The Memphis District, Regulatory Division is committed to providing quality and timely service to our customers. In an effort to improve customer service, we invite you to complete a Customer Service Survey found at <https://regulatory.ops.usace.army.mil/customer-service-survey/>. Your comments, positive or negative, will not affect any current or future dealings with the Corps of Engineers.

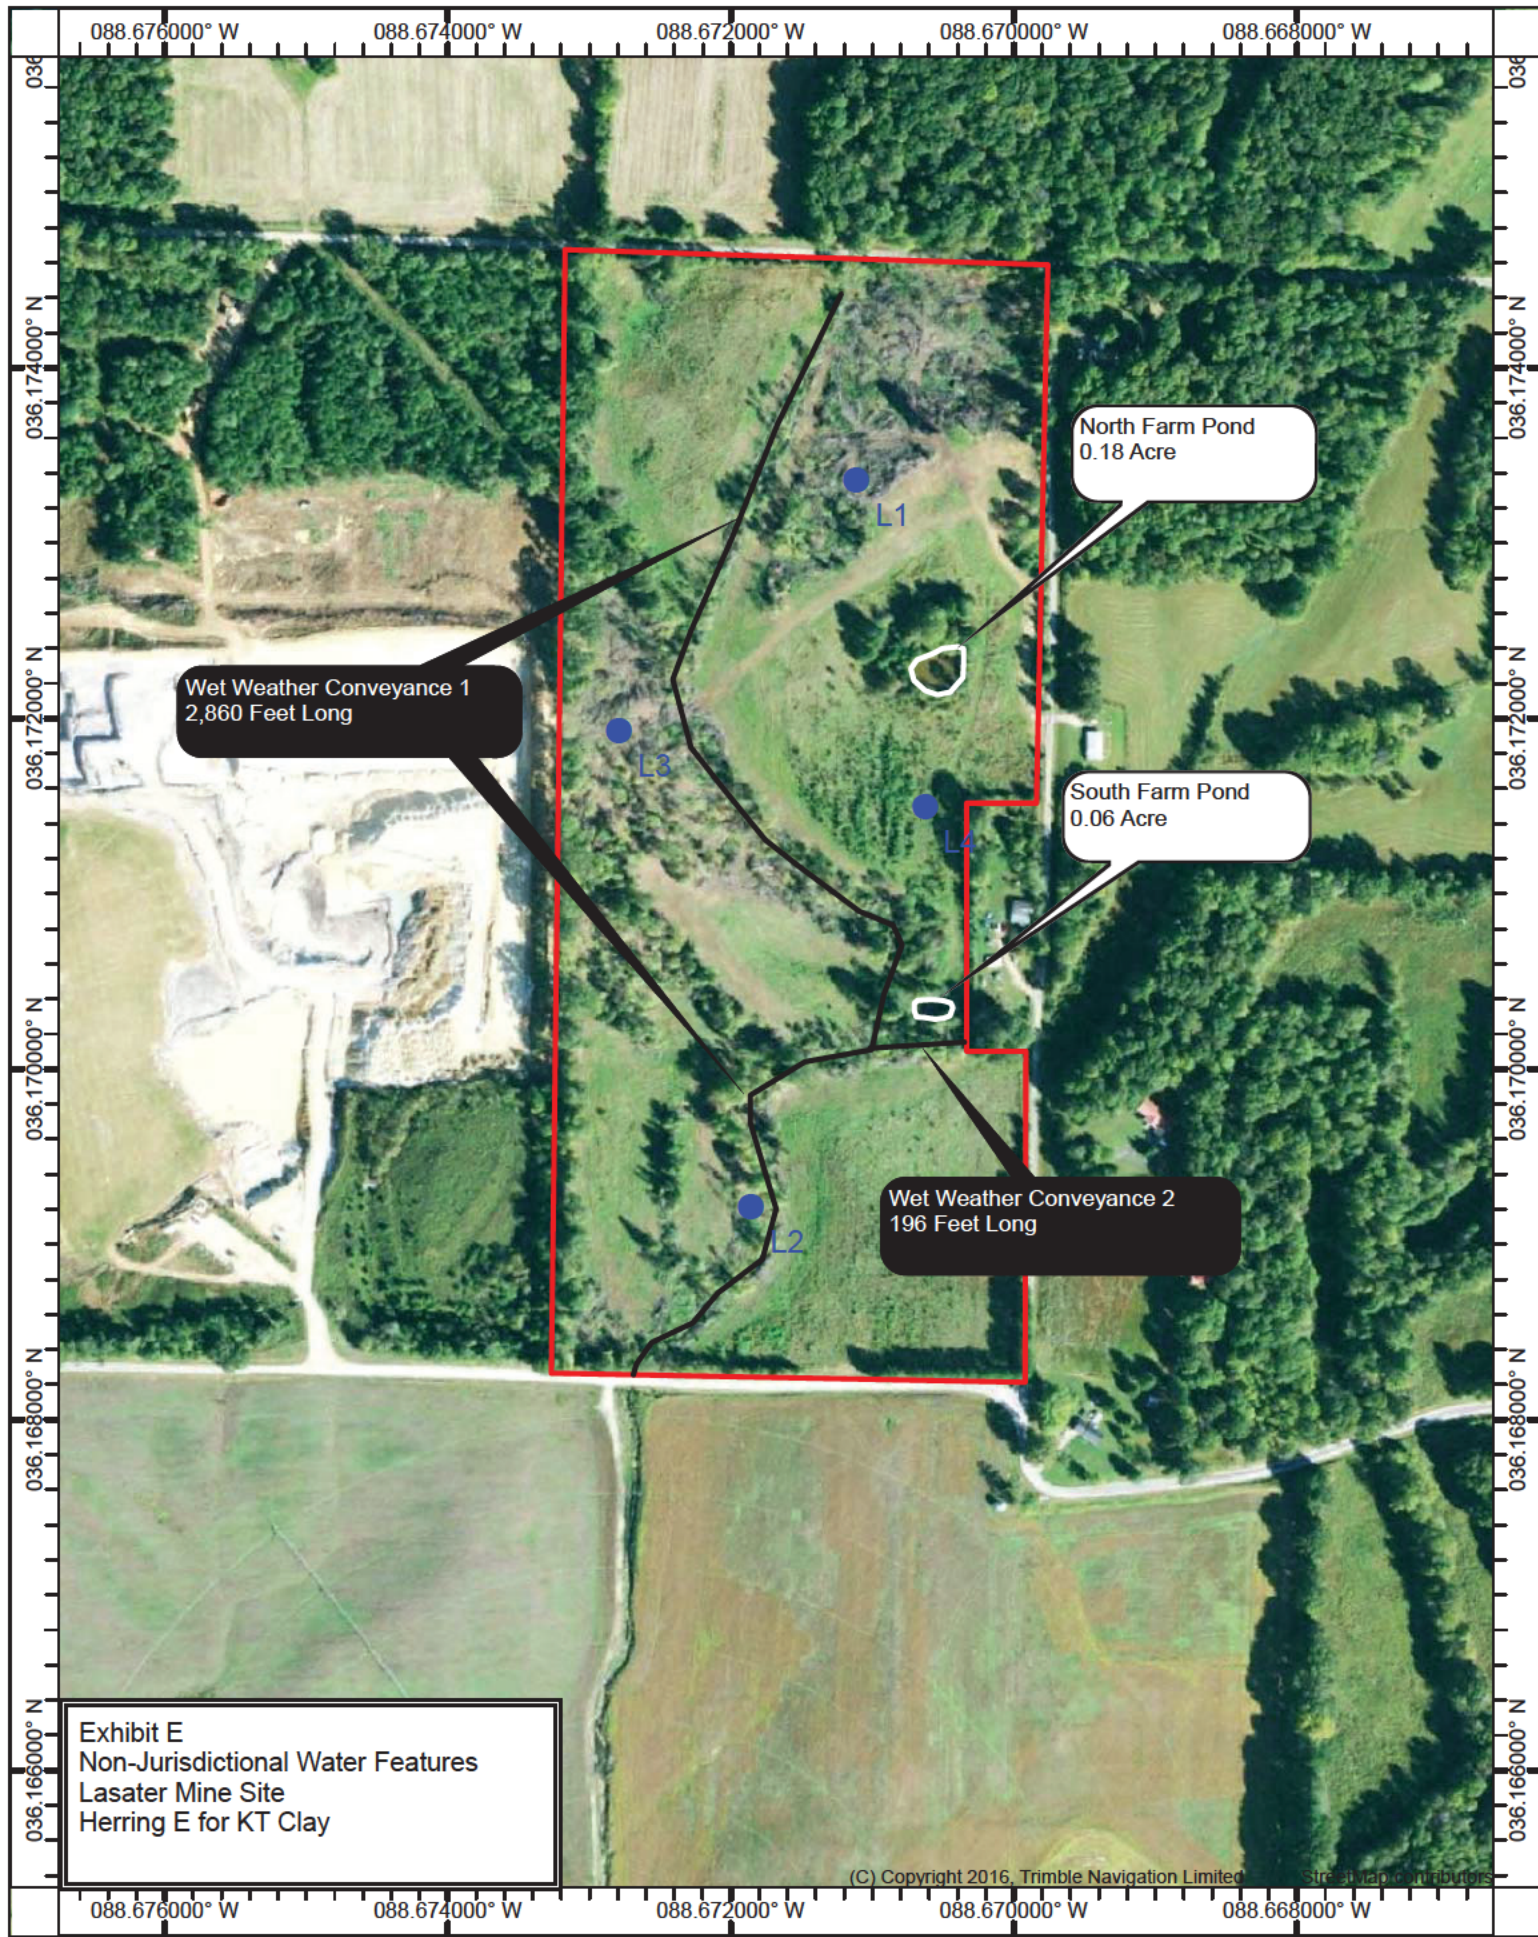

If you have questions, please contact [REDACTED] at [REDACTED] and refer to File No. MVM-2023-157.

Sincerely,

[REDACTED]  
Deputy Chief  
Regulatory Division
