of Engineers
Memphis District

Letter of Permission Notification

FILE NUMBER: MVM-2015-368

**NOTICE DATE:
December 11, 2015**

**RESPOND BY:
January 11, 2016**

AUTHORITY: Pursuant to 33 CFR 325, as published in the Federal Register dated November 13, 1986, this notice announces an application submitted for a Department of the Army permit under Section 10 of the Rivers & Harbors Act.

APPLICANT:

Ms. Tracy L. Adkisson
Harbor Town Community Association
740 Harbor Bend Road #1
Memphis, Tennessee 38103
(901) 523-9853

DESCRIPTION OF WORK: The applicant proposes to install a submersible pump into the Wolf River Harbor in Memphis, Shelby County, Tennessee. The pump will be powered by a 3 horsepower, 230 volt motor and will rest on the bottom of the Harbor approximately 60 feet from the shoreline. A 2-inch PVC pipe will be routed from the pump to the shoreline and uphill through an existing 42 inch drain pipe, terminating at the skating pond (see Attachment 1). The pump is estimated to provide water at a rate of 75 gallons per minute and will sit on top of a PVC sled (see Attachment 2).

PURPOSE: The purpose of the work is to provide a supplemental method for maintaining the water level of the skating pond located at the northwestern terminus of the PVC piping route, shown in Attachment 1. The current method of maintaining the water level by pumping water from wells is insufficient to sustain an appropriate water level.

LOCATION: The project site is located along the western bank of the Wolf River Harbor near the Harbor Town Marina in Memphis, Shelby County, Tennessee, as shown on the attached location map (Attachment 3). The site is located at approximate latitude 35.160859° and longitude -90.052231° on the Northwest Memphis, Tennessee, 7.5-minute quadrangle map.

COMMENTS: To request additional information; contact Mr. Charles Keating at (901) 544-0733. The Corps may provide copies of all comments, (including name & address of those providing comments) to the applicant for consideration and response prior to a decision. Comments should be received by the expiration date listed above. Comments may be sent via mail or e-mail to the following:
